**THE ATTENDANCE TARGET IS 97.5%**

**Thought for the Week:**

“Little by Little, one walks far.” Peruvian Proverb

**E - Learning Activity Day**

The children enjoyed finding out some important messages about keeping safe on line in such a fun way. We had professors, robots, meanies, aliens, a red chicken and Elvis Presley all sharing the stage at one point! The children really threw themselves into the “play in a day” approach. Everyone had the opportunity to take part, and some children really showed talents that we hadn’t seen before.

**Parents’ Assembly**

Several parents were disappointed that they couldn’t attend the E - Learning Assembly.

There were four key messages to remind children of:

Don’t give out any information about yourself online, even if you are offered prizes in return;

Never trust a photograph;

Once you have posted something it is out there forever, so think before you send anything and

If you are worried, always talk to an adult that you trust.

We will continue to remind children of the importance of keeping safe online.

**Year Six Parents SATS Meeting**

Thank you to all the parents who attended the meeting about the SATs. Mrs Sandalls tells me that you answered all the questions very well – in fact you got all of them right! It is important to appreciate the standard the children have to achieve in order to meet the end of year expectations – it is higher than many people think.

**Red Nose Day**

We will not be wearing anything other than our school uniform and a big smile on Friday 24 March so please do not spend a fortune on Red Nose Day accessories on our behalf. You would be amazed at the things children tell their parents that we have asked them to do sometimes! If you want to buy them to wear at home then please feel free. If anyone wants to make a donation we will happily forward these to the good cause.

**Mothering Sunday Assembly**

We will be celebrating the importance of the person who provides the mothering in our families on Friday 24 March with a Community Assembly at 2.30pm. Everyone is welcome.

**Science Week**

All children enjoyed focusing on science last week and took part in many exciting experiments: static electricity, identifying rocks and separating materials to name but a few.

**United Nations International Happiness Day is today!** Let’s make the effort to smile a little bit more and consider all the things that we have to be grateful for in comparison to others whatever difficulties we face today.
